Product/Process Change Notification

< R82 series - Production Flexibility Anting plant (P.R. China) >

| | | |
|--|---|---------------------------------|
| Date: | July 27th, 2017 | ID Number: PCN-170727-AS |
| Affected Products | R82 series – limited range as per attached list | |
| Change | <p>KEMET will extend the Packaging, Quality Control and Shipping capabilities to the plant located in Anting, P.R. China for R82 series as per attached list of the part numbers.</p> <p>As already notified by PCN-170213-GM v1 the marking can be performed with different technologies (laser- inkjet and offset) without any change in the marking layout and marking information.</p> | |
| Justification and Benefits | <p>Such delivery flexibility in Anting plant will result in an enhanced capability to support KEMET Customers with same typology of products from the plant located in Anting (P.R. China). This enhances our ability to react to Customers' urgent needs in emergency situations and provides the potential for commitment to shorter lead times in general.</p> <p>This is achieved without impact to product form, fit, or function as the products are equivalent with respect to physical, mechanical quality and reliability characteristics.</p> | |
| Effective Date and Identification | <p>Without acknowledgement of this amendment notification by October 1st, 2017 KEMET will proceed to implement the change as described herein.</p> <p>First shipments from Anting shall take place starting from November 01st, 2017.</p> <p>Identification of parts from Anting Plant will be made by the country of origin (C of O or COO) printed on the packaging label.</p> | |
