To: Valued Customer

From: Littelfuse Product Management

Subject: EOL of non-RoHS 451MR/NR series

Hello all,

This is a **60-day Obsolescence notice** for the non-RoHS 451MR/NR series of the NANO Fuses series fuses.

Littelfuse would like to inform you that we would EOL/obsolete the existing non-RoHS 451MR/NR series fuses and to be replaced by its RoHS-compliant versions.

The suggestions/options of RoHS-compliant alternatives to the non-RoHS 451MR series would be as follows;

- 451MRL/NRL – Gold terminations
- 453MR/NR – Silver terminations
- 451MRSN/NRSN – Tin-dipped terminations
- 448MR – Lead-free (Pb-free)

Please see attached for the different options to each of the 451MR part number.

Dates and Timeframe

Last time buy is 30th November 2017.

Please see attached for the different options to each of the 451MR/NR part number.

Best regards;
Daniel Wang
