

**11<sup>th</sup> June 2010**

**Obsolescence of HSDL-3208-002**  
***Notification Date : 11<sup>th</sup> June 2010***

Dear Customer,

Liteon Technologies regret to announce the obsolescence of the option number 002 for the HSDL-3208 IRDA Transceiver Product.

For future orders, please continue to purchase your order using the option number 021 ie HSDL-3208-021

In terms of product performance and quality, there is no difference between the HSDL-3208-021 and the HSDL-3208-002

The only difference between these 2 options is the SPI.

The HSDL-3208-002 is for a SPI of 1K units per reel and the HSDL-3208-021 is for an SPI of 2.5K units per reel.

We value you as an important customer and we are truly sorry for this unforeseen circumstance.

If you have any questions or concerns, please do not hesitate to contact your local Lite-On contacts.

Yours truly,  
Freddy Ho
